

## Amendments to the Claims

1. (Currently Amended) A portable communication apparatus (1) comprising:

a first housing portion (2) and a second housing portion (3),  
a rotary support member (6) rotatably connecting the first housing portion and the second housing portion,  
an image producing apparatus (7),  
an optical input (8) for the image producing apparatus located in the support member, characterized in that

the image producing apparatus (7) is located in the first housing portion (2) or the second housing portion (3) of the portable communication apparatus (1), and

an optical arrangement (14) extends an optical path (12) of the image producing apparatus from the first housing portion or the second housing portion to the optical input (8) located in the rotary support member (6).

2. (Currently Amended) A portable communication apparatus (1) according

to claim 1, wherein the optical arrangement (14) comprises a prism (14a).

3. (Currently Amended) A portable communication apparatus (1) according

to ~~any of claims 1 or 2~~ claim 1, wherein the optical arrangement (14) comprises a mirror (14b).

4. (Currently Amended) A portable communication apparatus (1) according to ~~any preceding claim~~ claim 1, wherein the optical arrangement (14) comprises a light guide (14e).

5. (Currently Amended) A portable communication apparatus (4) according to ~~any preceding claim~~ claim 1, wherein the optical input (8) is aimed in a first direction when the communication apparatus (4) is in an open state, and in a second direction when the communication apparatus (4) is in a closed state.

6. (Currently Amended) A portable communication apparatus (4) according to ~~any preceding claim~~ claim 1, wherein the image producing apparatus is a video camera.

7. (Currently Amended) A portable communication apparatus (4) according to ~~any preceding claim~~ claim 1, wherein the image producing apparatus is a still camera.

8. (Currently Amended) A portable communication apparatus (4) according to ~~any preceding claim~~ claim 1, wherein the portable communication apparatus is a mobile telephone.

9. (Currently Amended) A portable communication apparatus according to claim 1, wherein (4) comprising:  
a ~~first housing portion (2) and a second housing~~  
~~portion (3),~~  
a rotary support member (6) rotatably connecting the

~~first housing portion and the second housing portion,~~  
~~an image producing apparatus (7), and~~  
~~an optical input (8) for the image producing~~  
~~apparatus located in the support member, characterized in~~  
~~that~~

the connection between the first housing portion (2)  
and the rotary support member (6) is fixed, wherein the  
optical input (8) of the image producing apparatus (7) is  
rotatably fixed relative to the first housing portion.
